

Webinar event

Making positive changes to lives in PNG through private sector initiatives

In 2015, the Oil Search Foundation was established to ensure Oil Search's social investment programs maximised opportunities to deliver sustainable outcomes and achieve real improvements in social indicators.

Five years on, the Foundation has worked with partners to achieve sustainable and lasting results that are changing lives in PNG. These include: improved health services for over one million people, providing case management and safe house services for survivors of family and sexual violence, and boosted literacy levels of over 500 children through literacy libraries. The Foundation has also leveraged more than USD \$29 million to support development programs in PNG's Gulf, Southern Highlands, and Hela provinces as well as the National Capital District.

Join us for a Zoom webinar to hear about the latest projects and initiatives from PNG Oil Search Foundation Executive Director Stephanie Copus-Campbell.

Stephanie Copus-Campbell

Executive Director

Papua New Guinean Oil Search Foundation

Stephanie is responsible for implementing annual programs focused on health, leadership and education and women's empowerment and protection.

She is an experienced leader in the humanitarian sector serving on numerous boards and councils including the Harold Mitchell Foundation, UNICEF and Lowy Institute's Australia-PNG network.

Stephanie holds an MPHIL degree from Cambridge University (UK), a Bachelor's degree in Political Science from the University of California and is a graduate of the Australian Institute of Company Directors.
