

Business Breakfast with Phil McCormack

The Sepik Development Project: Opportunities, Challenges and the Future of Major Infrastructure Development in Papua New

The Sepik Development Project is an integrated mining, infrastructure, power, and transport initiative designed to support long-term economic development in Papua New Guinea. The project is expected to create approximately 2,500 direct jobs and more than 30,000 indirect employment opportunities while delivering significant infrastructure investment across the region.

RSVP Now to secure your seat at our business breakfast to hear from Phil McCormack, Project Director at **PanAust**.

Phil McCormack

Project Director | PanAust

Phil McCormack is a senior mining and infrastructure executive with more than 15 years' experience delivering major projects across Australia and Papua New Guinea. As Project Director at PanAust, he is leading the advancement of the Frieda River Project and brings extensive expertise in project delivery, stakeholder engagement, and large-scale infrastructure development.
